The Department of Water Supply, Gas and Electricity does not intend to give up its power to instell water meters as authorized by the greater city charter without a vigorous legal struggle. In a test case brought by August Swanberg, of No. 4123 Third avenue, Rrooklyn, a temporary injunction was granted by Justice Thomas, of the Supreme Court, and when the department tried to have this injunction vacated without argument Justice Thomas gave twenty days to prepare briefs, but refused to vacate the first decision.

next October.

The city has two methods of charging for water, the meter and the frontage systems. The former is authorized in a section of the charter, which says:

"The Commissioner of Water Supply is authorized in his discretion to cause water meters, the pattern and price of which shall be approved by the Board of Aldermen, to be placed in all stores, workshops, hotels, manufactories, office buildings, public edifices, wharves, ferryhouses, stables and ablic edifices, wharves, ferryhouses, stables and all places where water is furnished for business

LOOKING FOR BOOTY.

Loot of Thefts at Princeton and Philadelphia Said To Be Here.

The local police and men from the Pinkerton Deective Agency are scouring the city to find thousands of dollars' worth of jewelry which was taken in two recent robberies, one in Princeton, N. J., and the other in Philadelphia. The thieves have been traced to this city. It is said that the Philadelphia robbery was committed between June 10 and 17. Among the articles taken were a Sons of the Revolution insignia, one of the Colonial and one of the Mayflower Society. There are many articles or silverware also in the list. Among the articles taken in the Princeton robbery was a dia-

mond brooch, said to be worth nearly \$10,000.

The loot has not been found in this city. Lists of the stolen property were not furnished to pawh-brokers until weeks after the robberies. The local police have not called at any of the pawnshops in the last ten days. One pawnbroker said yesterday: the last ten days. One pawnbroker said yesterday:
"The detectives must be on their vacations, for
we haven't seen one in over a week. It has been
rumored since inspector McCafferty took charge
of the detective bureau that the police would not
devote their energies to searching pawnshops for
stolen property, but would run down the thleves.

New York will soon resemble a Western town during the pioneer days, so far as lawlessness goes. I have been in the game for a good many years, and the thieves are certainly reaping a harvest since Inspector McLaughlin was retired. They feared him. Now, if a chap pulls off a trick within five hundred miles of New York he will come here, for he believes he can sell the stuff without getting caught."

JOHN A. YOUNG ROBBED.

May Be Warning to Cease Search for Runyan Theft Funds.

Glen Cove, Long Island, July 12.—Burglars robbed the home of John A. Young, the president of the Windsor Trust Company of New York, last night. ters in apartment houses, but an appeal to courts abrogated the right. In the decision ess was laid on the fact that an apartment see could not be strictly regarded as a business \$100,000 by its paying teller. Mr. Young lost over \$1,000 in silverware. The county detective, Hults, says the jich was the work of river thieves, footprints leading from the house to the private dock on the Sound. In their hurry to get away the burglars overlooked a small safe which stood in the hall near the dining room. It contained silverware and money.

Although Mr. Young, his wife, her mother, thi Although Mr. Young, his wife, her mother, three children and two Japanese servants were in the house at the time, none heard the burgiars. When the robbery was discovered in the morning, District Attorney Coles was informed. He sent word to the police in Port Chester, Rye and New York City. No one in this vicinity saw a craft of any kind, either last night or this morning, plying in the Sound, but the county detective persists in his belief that the robbers used some kind of a boat to carry away their plunder. oat to carry away their plunder.

According to one of the theories put forward in police and banking circles here yesterday, the robbery of the home of Mr. Young may have been a pointed hint to him to cease his seemingly tireless search for the \$25,000 stolen from the bank by Chester B. Runyan and still unaccounted for. Within the last few days the fact has come out that President Young is making the search for the \$25,000 a personal matter, spending several hours a day, on occasion, in conferences with the head-quarters detective bureau or the Pinkerton representatives, or himself unearthing and suggesting possible clews.

possible ciews.

Even assuming that the theory should prove to be well founded, it is, of course, not believed for a moment that Runyan had the remotest connection with the recent theft. Investigation of Mrs. Carter's immediate antecendents, however, it is said, has disclosed that she has friends and associates, many of whom, according to the police, may have shared in the \$25,000 still unaccounted for, and at least one of them is still at large. Although the Windsor Trust Company's depositors are not a doilar out by the Runyan incident, and the bank's new deposits have more than offset any withdrawals as the result of the affair, President Young and his brother, George W. Young, the managing director, are determined, they say, to "see the Runyan affair through," both as a matter of principle and as a protection of the trust company depositors.

WOLF! WOLF! BY HECK!

All Somerset County, N. J., in Hue and Cry After Monster.

Peapack Station, N. J., July 12 (Special).—Somer-set County will awake to-morrow morning to hear the rattle of musketry, the hoarse shouts of men and the baying of hounds. There will be a grand hunt in progress for a wolf which has been devastating the country near Peapack and Gladstone The terror of this wolf, which is said to bear a striking resemblance to the hound of the Baskervilles,' has spread even unto Bernardsville. Since it appeared there has been a marked decline in the applefack market, but, notwithstanding this, it

still appears. The animal is believed to have escaped from travelling circus about two years ago and it has been growing ever slace, until its size passes all

Captain Vincent, of Union Grove, has organized Captain Vincent, of Union Grove, has organized a posse of citizens, which will start at break o' day to-morrow in a relentless search for the lair of the beast. Captain Vincent shot a mink in the fall of 1889. He is prominently mentioned as a candidate for a place on the new fish and game commission which Governor Stokes is to name immediately on the retirement of Colonel "Sam" Dickinger.

Another expert who will accompany the party is David Henderson, who declares that the "critter's antics show all the earmarks of a skunk." On the other hand, Mr. Apgar insists that it must be a possium, because it is so foxy. These views have been somewhat discounted by the reports of sheep which have been killed and dogs which have been mauled. When these stories are told at night in the village store at Gladstone the storekeeper always lights an extra lamp.

The fact that some of the women of the place

That night Mr. McMurtry was aroused by a racket in his yard, and looking out saw a great creature with two flaming orbs, a blood-red mouth flecked with foam and a sloping back along which ran a line of coarse bristles. The lips of the creature were curled in a hideous smile. Presently this weird monster extinguished the lights in its eyes and sprang upon the faithful wate idog Mr. McMurtry shouted, whereupon the animal vanished like a wraith.

It was explained that the deta would be kept secret so as not to alarm the wo would be kept secret so as not to alarm the work. At first it was planned to give the newspapers a false plan of the campaign in order that the wolf would be derelved into going around the other way and thus walk right into the trap.

But then it was explained that this plan would entail great personal risk to the members of the hunting party, who might be surprised by the monster.

Hugh Roff, the only living bachelor farmer in Hugh Roff, the only living bachelor farmer in Union Grove, who it is said can outrum a dog and who wants to race the wolf, will be there in the morning, as will be Will Lisk, painter (house) and superintendent of the Union Grove Sunday school; John Conroy, a prominent and leading, carpenter; Thomas Conroy, his brother and a farmer; Abner Goodwin, who has charge of the estate of Charles Pitzer, and Thomas Keefe. In accordance with this rule, Bigelow's second marriage must be presumed to have been valid, and he qualified to contract it. For such purpose it will further be presumed that he obtained a divorce from his former wife.

"She may not have been actually served with a process in such an action, and that she did not appear therein to defend may have been due to the fact that she had no defence to offer, or that she was indifferent to the result. Coroner Shrady has already examined several witnesses concerning what happened at the dinner party. Vincenzo Villi, one of the guests at the dinner, went to the coroner's office yesterday afternoon, accompanied by his counsel.

It is said that he told the coroner that the girl received her injuries by falling over backward from a chair while leaning too far back. This does not tally with the account given by the police, who say that she was hit by a vase thrown by Rossi during a quarrel shortly after the dirner.

Dr. Beatty, who attended the girl some days prior to her death, went to see Coroner Shrady yesterday, and said that, in his opinion, she could not have received the injuries by falling from the chair. Coroner Shrady, said later that he believed the woman had been killed by being struck on the head by some heavy, blunt instrument. He said that Dr. Schultz, coroner's physician, reported that the woman had suffered a compound fracture of the skull and other injuries.

INDIAN TRIBE SUES FOR LAND.

Brings Action for Montauk Point Property, Claiming Ownership Since 1660.

Claiming Ownership Since 1660.

Riverhead, Long Island, July 12.—The Montauk Indians, as a tribe, have brought suit in the Suffolk County Court against the present holders of land at Indian Field and North Neck, at Montauk Point, which the Indians say they have been deprived of since 1690 by the whites. Suit was brought several years ago, but was thrown out of court because the Indians had no standing as a tribe. The Legislature in April. 1906, gave the necessary authority.

According to Charles O. Maas, of New York City, who is counsel for the Indians, they deeded the land to the whites in 1690, retaining the right to live there uninterruptedly. In 1879, however, the part of the point in dispute was sold to Arthur W. Benson, and he is alleged to have paid each Indian individually to move off. The tribe now says that this bargain was illegal, that the Indians should have been dealt, with as a tribe. Benson has since died and suit is brought against Janes A. Benson, Mary Benson and Frank Sherman Benson, as executors of the estate of Arthur W. Benson. The Long Island Railroad Company and the estate of Austin Cerbin are \$150\$ named among the defendants.

Cricket Club."

It is understood that the Stated Island committee will endeavor to have the strongest possible eleven in the field representing New York, irrespective of club affiliations. The match will probably be played on September 17 and 18.

The Metropolitan League championship matches scheduled to be played on June 29, and postponed on account of rain, will be played on the following dates: September 2, Montelair against Yonkers at Newark, September 14, Montelair against Columbia Oval at Newark, and Kluss County against Yonkers.
